

## Data Sharing Statement

<b>Article Info</b>	http://dx.doi.org/10.21037/gs-21-112	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Data with regard to patient demographics, flap characteristics, individual treatment status, flap-related or donor-site postoperative complication will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Other documents can be shared if requested.
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years within the publication date, since the technique or operative results may be updated over time.
7	To whom will you share the data?	Plastic surgeons and breast surgeons who are interested in studies of reconstructive surgery using autologous abdominal flap
8	For what type of analysis or purpose?	For analysis to find out the effects of prior abdominal surgery on the flap-related or donor-site complications, and to confirm the risk factors
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: cjh665@gmail.com
10	Any other restrictions?	We may balance the benefits and risk for each request and then provide the data that could be shared.
